

# Product Comparison

A look at Portnox's network access control (NAC) solutions.

## Portnox CLEAR

Cloud-Delivered NAC

Portnox CLEAR NAC-as-a-Service provides actionable network visibility and continuous risk monitoring of all endpoints across all access layers – no matter device or location.

### Key Elements:

- Cloud-delivered, no on-site infrastructure
- Runs on Microsoft Azure
- SaaS subscription model
- Covers wired, WiFi and remote access environments
- Covers managed devices, BYOD and IoT
- 802.1X reliant
- Agent optional

## Portnox CORE

On-Premise NAC

Portnox CORE delivers an easy-to-use, on-premise network access control solution focused on ensuring fast deployment, robust security, limited maintenance & more.

### Key Elements:

- Software-based, no appliances
- Runs on Windows servers
- Perpetual licencing and subscription models
- Covers wired, WiFi and remote access environments
- Covers managed devices, BYOD and IoT
- 802.1X not required
- No agent
